Delta Dental Mobile Features

Log In to Access the Full Range of Tools & Resources

1 SUBSCRIBER ID CARD

Our most-used feature is now on the landing page. Simply log in to view your ID card, show it at the dental office, or email it to a dependent or provider.

TIP: You can choose to make your ID card available on your device without logging in.

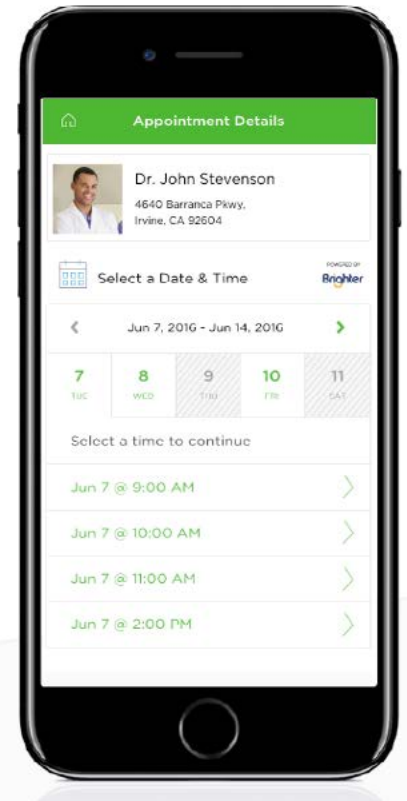

2 FIND A DENTIST

Search for providers who are in your area and have the qualities that matter most to you. Find an office close to work or home, and filter by gender, language spoken, or accessibility features. Once you've found a provider who fits your needs, save his or her information to your contacts, schedule a visit, or navigate directly to their office with the touch of your finger.

TIP: Our tool defaults to your plan network (when logged in) and **General Dentist** to make searching for an in-network provider simple. You can also choose to use your device's GPS to determine your location or search using your provider's last name to see if he or she is in network.

3 MY COVERAGE AND CLAIMS

Simply click **My Coverage** or **My Claims** within the top left menu bar to check your coverage information or see claims status. Within the coverage section, you can review your plan type, benefit levels, and contact information for your Delta Dental company, as well as details on your deductibles and maximums. Within the claims section, you can check the status of your most recent dental claims. Click on a specific claim to view details of that visit with the option to email the claim information.

New Feature! BRIGHTER SCHEDULE

You can now make appointments through the mobile app if your provider has enabled the Brighter Schedule function. If you find your dentist on the app but do not see a mobile scheduling option, ask them to consider adding this functionality to their Brighter profile.
